

MARCH

FOR PRESIDENT  
**FRANKLIN PIERCE**  
OF NEW HAMPSHIRE.

FOR VICE-PRESIDENT  
**BENJ. FITZPATRICK**  
OF ALABAMA.

SUBJECT TO THE DECISION OF A DEMOCRATIC NATIONAL CONVENTION.

**Democratic and Anti-Know-Nothing Electoral Ticket.**

FOR THE STATES AT LARGE.

W. L. YANCY, OF MISSISSIPPI.  
LEONOR P. WALKER, OF MISSISSIPPI.

FOR THE DISTRICTS.

1. A. B. MEKE, OF MISSISSIPPI.  
2. JAMES L. PUGH, OF ALABAMA.  
3. EDWARD J. BACON, OF CHAMBERS.  
4. JOHN D. BARR, OF TEXAS.  
5. JOHN D. BARR, OF TEXAS.  
6. BENJ. C. YANCY, OF GEORGIA.  
7. J. L. M. CURRY, OF ALABAMA.

We are authorized to announce that **Thomas A. Walker**, as a candidate for re-election to the office of Judge of the 5th Judicial Circuit.

**To the Voters of the 5th Judicial Circuit of the State of Alabama.**

I take this method of announcing my self a candidate for Judge of the 5th Judicial Circuit at the approaching election. Should I be so fortunate as to receive a majority of your suffrages, I shall discharge impartially the duties of the office to the best of my ability.

Respectfully,  
S. D. HALE.

We are authorized to announce **Philip Mayfield**, as a candidate for Sheriff of Benton Co., at the next election.

**Copper Mines.**—We copy to-day, from the Talladega Watchtower, a glowing account of important discoveries of copper ore in that county. We have also noticed accounts recently of valuable discoveries of the same character in Lumpkin, Polk, and other counties in Georgia—recently a copper lot, in one of the last named counties, brought at an estate sale, six thousand dollars, said to be not near its value.

We state these facts, not to create a copper excitement, but to give reasonable and rational encouragement to owners of copper lands in this and Randolph counties. The discoveries mentioned are above and below, on the same lead with lands owned by the Jacksonville Mining Company. There is now abundantly more cause for excitement than there was when these lands were entered; and yet not one single test of sufficient extent has been made in either county. Generally, persons have dug a few feet, until they reached water and then sought a new place.

We suggest to the Jacksonville Mining Company the propriety of having a meeting within a few days, and taking steps to make at least one thorough and sufficient test on a lot where there is the best prospect of success. Let them do this, or appoint a day and sell out their entire interest to the highest bidder.

**The Foreign News.**—The news we publish to-day, though uninteresting by the brief telegraphic dispatches, will be found unusually interesting. The prospect of peace between the Allies and Russia is still brightening, but the difficulties between England and the United States have assumed a more threatening aspect; and war between the two countries seems now to be really probable. We have believed for some time that England and France was anxious to make peace with Russia, in order to afford them an opportunity to dictate and intermeddle in the affairs of this country; and that they were willing even to go into a war in order to more to cripple and humiliate this government, and retard its onward progress in greatness and prosperity. It is not so, why do all the propitiations for peace in Europe come from the allies? Why the unceasing complaints from the English press and ministry of the sympathy manifested by the people of the United States for Russia? and why the frequent threats from the highest official stations, to turn their attention back to Russia as they get Russia off their hands?

The London Times, the government organ speaks in threatening terms of war, and a London dispatch says that a good deal of irritation is felt there in consequence of the sympathy manifested here for Russia; and further, that if "the people of the United States permit their rulers to plunge them into a war with Great Britain, they will receive the most terrible lesson ever administered to national enmity and quarrelsomeness." Well, the British have taught us two such lessons heretofore, and we suppose we are about ready for a third, and when they get ready to commence it, we will find another Jackson and take about such another lesson as we did at the battle of New Orleans, on the plains of Chalmette.

**The Presidency.**—The almost universal expression of preference for the re-election of President Pierce, on the part of the entire Southern Democratic party, seems now to have assumed a settled conviction, that he and he only is the man who can and will unite the Democratic party, not only of the South but the whole Union. South Carolina is now almost certain will go into the approaching National Democratic Convention; and we do not believe there will be a single dissenting voice in that body from any Southern State to his re-nomination. The States of New Hampshire, Massachusetts and Vermont, having 46 delegates, have sent their preference for him; and the 26 delegates from Rhode Island, Connecticut and Maine, it is said, will probably do the same thing. Under these circumstances, there can scarcely be a doubt, not only of the nomination of President Pierce, but of his triumphant election.

The Philadelphia Convention, on the 21st February nominated Mr. Fillmore for President, and A. J. Donelson, of Tennessee for Vice President.

### Amendments of the Free School Law.

We have been politely favored by our Senator, Mr. Abernethy, with a copy of this bill in its first form, and an explanation by him of the principal amendments up to the time of its final passage, from which we are enabled to answer the numerous enquiries of us, relative to some of the most important alterations.

The traveling duties of the Superintendent for the State have been abolished, and his salary, reduced from \$2500 to \$2000; and the contingent fund allowed him, reduced from \$2500 to \$900. The County Commissioners have been dispensed with, and in their stead one County Superintendent provided for, whose duties are similar to those of Commissioners, and who is to receive a compensation, to be allowed by the Commissioners Court. The County Superintendent is to be elected by the people, for two years, the first Monday of May next. The provisions for raising an additional school fund, it is supposed, will increase the present amount about one hundred and twenty thousand dollars annually.

Until we have an opportunity to publish the law, we will note any other changes we may think will be of interest to the people.

**ELECTION YESTERDAY.**

Any man might have said that the 4 C C C would have been successful—Cannon, and Cantel, Justices—Crawford, Constable, and Corporation. One being the first of two of their names, it is evident that they can do any thing they try. They sucked in the suckers, and the suckers sucked in their juice. All right.

Ad to Kansas.—Hon. B. Fitzpatrick, S. W. Harris, and J. F. Dowdell, have each contributed \$50 to Col. F. Buford to aid Kansas emigrants.

### Missing Steam Ship.

Great interest and anxiety is felt for the fate of the Steam Ship Pacific, belonging to the Collins U. S. Mail Line. The time for her arrival at New York has passed a number of days without a vestige of intelligence, and it is feared she has been wrecked, and all on board have perished.

**FRANK LINDWOOD.**—We have been favored by the publishers with a copy of this interesting and popular romance, by Mrs. Caroline Lee Hentz. We have not had time to examine it, but some of our friends who have read it, speak of it in the highest terms, and say that the publishers have not neglected it more highly than it deserves. The numerous friends of the talented author have been deeply grieved to see a notice of her death which occurred recently, from an attack of pneumonia, at Tallahassee, Florida.

### Peace and War.

These words have come to be more domestic than foreign; and it would seem that in proportion to the prospect of peace in the Orient brightens, the storm clouds gather and darken in the West. Instead of the "Holy places" at Jerusalem, we have now Mr. Cameron, Mr. Matthews, and the King of the Mosquitoes. It is a great letting down of the dignity of war; and if we do actually fall to fighting, it will be on far less romantic pretenses than have served as a mask for the recent profuse waste of life and treasure in the East. But it is undeniable, that the last news from England is very unfavorable to the settlement of the question in dispute between that country and the United States. Peaceful as the general tone of Lord Carnarvon's speech, it is decidedly peaceful; for it asserts that the British Government is perfectly satisfied with the conduct of Mr. Cameron; and that he has neither been intended to do anything derogatory to the honor of the United States, nor to assume a more threatening aspect; and war between the two countries seems now to be really probable. We have believed for some time that England and France was anxious to make peace with Russia, in order to afford them an opportunity to dictate and intermeddle in the affairs of this country; and that they were willing even to go into a war in order to more to cripple and humiliate this government, and retard its onward progress in greatness and prosperity. It is not so, why do all the propitiations for peace in Europe come from the allies? Why the unceasing complaints from the English press and ministry of the sympathy manifested by the people of the United States for Russia? and why the frequent threats from the highest official stations, to turn their attention back to Russia as they get Russia off their hands?

The London Times, the government organ speaks in threatening terms of war, and a London dispatch says that a good deal of irritation is felt there in consequence of the sympathy manifested here for Russia; and further, that if "the people of the United States permit their rulers to plunge them into a war with Great Britain, they will receive the most terrible lesson ever administered to national enmity and quarrelsomeness." Well, the British have taught us two such lessons heretofore, and we suppose we are about ready for a third, and when they get ready to commence it, we will find another Jackson and take about such another lesson as we did at the battle of New Orleans, on the plains of Chalmette.

### LATER FROM EUROPE.

#### ARRIVAL OF THE ATLANTIC AND ASIA.

New York, Feb. 24.—The steamer Atlantic and Asia arrived to-day, with Liverpool dates to the 9th.

Peace negotiations were progressing favorably. The preliminaries had been fully ratified, and the conference would be opened in Paris in about three weeks. The aspect of affairs, however, between England and the United States was threatening. The story of a difficulty between Mr. Buchanan and Lord Clarendon was repeated, and it was even reported that the former had demanded his passports. The tone of the Government organs was highly offensive to the United States. The latest report is that Sir H. L. Pulteney had offered to mediate between Mr. Buchanan and the English Minister.

In consequence of these events, Congress had recessed to 5th at the middle of the week, but subsequently rallied, closing at 9 1/2.

Cotton was quiet, with sales of 58,000 bales. Some circulars quote prices as easier. Advances from Manchester were unfavorable. Money more stringent.

### Additional by the Atlantic.

The steamer Atlantic, which arrived in New York on Sunday, encountered strong westerly gales for ten days, and was detained in a field of ice for three days.

In relation to the difficulty between this country and England, the following additional news is given:

The London Times says: "We expect to hear every day that our minister at Washington has received his passports and is on his way home. This, of course, will compel similar proceedings on our part with regard to the American Minister here. The two Ministers will probably pass each other on the Atlantic."

After deploring the existence of this quarrel, the Times says: "That England has really apologized enough to satisfy ten European Emperors; and cannot be held responsible for this estrangement. Americans must reckon on an obstinate resistance if they drive us to it. Let them count the cost before they take such a fatal step, or after two or three paces they will calculate in vain."

A London dispatch says that a good deal of pardonable irritation is felt here, that the sympathies of a Republican people should have been so unaccountably manifested during the present war in behalf of that great mainstay, and sheet-anchor of European despotism, and if the people of the United States will permit their rulers to plunge them into a war with Great Britain, they will receive the most terrible lesson ever administered to national enmity and quarrelsomeness.

The Journal des Debates labors to prove that the interests of France and England were identical up to the present time; but that if the war is continued the Baltic or Asia will subvert the private interests of England only.

No American mail had been received in England for some time.

Washington, Feb. 25.—The Senate adopted a resolution calling on the President for the correspondence on the enlistment question. Mr. Jones replied to Mr. Wilson's speech, in regard to Kansas.

The House did nothing.

Philadelphia, Feb. 25.—The Convention last night nominated Mr. Fillmore for President, and A. J. Donelson, of Tennessee, for Vice President.

Cincinnati, Feb. 26.—The ice is breaking up here, and the river is rising. Several steamers have been sunk, involving a loss of \$200,000.

Boston, Feb. 25.—The Italians have abandoned the invasion of Dominica.

### Kossuth and the Peace Question.

Kossuth has written a long letter to the New York Times, on the probability of peace. He affirms that the propositions were concocted in secret, between Louis Napoleon and the Czar, Austria acting as mediator or messenger. He says: "The peace, if concluded now, if concluded this, is nothing less, than a supplement to the infernal treaty of Vienna (1822), a deliberate inauguration of that Continental alliance, the threat of which was launched at England at that time by Russia, and which I constantly predicted must be the result of this war, if Russia is allowed to get out of it with her power unbroken in its substantial elements; if England leads her unwary hands to denaturalizing the character of the problem implied in the war; and proves to be sufficiently inconsiderate to place herself on the hook of L. N. Bonaparte."

"My predictions are drawing fast toward, even an earlier realization than I myself had anticipated. Such is the inexorable law of advancement on the chapter of faith in politics. A mighty cloud of supreme danger is thickening over England. If ever prophecy was true, this is true. Can England now avoid the danger? I fear she cannot. It is too late for men of ordinary standard, and England has none else—led and drifting as she is she must glide and glide she will. It is Milton's bridge; there is no stepping on that."

He discusses the subject at considerable length, and affirms that Bonaparte wants to put an end to the war at any price, his object being unity with Russia. "To arrive at this he will accept anything, concede everything, provided the elastic philosophy of Parisian diplomacy can save for him so much of appearance as will enable him to plunge himself in the bosom of hypocritical emotion." Thus the issue does not lie between Russia and England on the one, and Russia and the other, but between Russia on the one side and England on the other. He concludes, by affirming that England will yield, and thus consent to a peace which a few years hence will prove to have been but a preliminary to a continental coalition of despotism against herself.

### STRANGE MAIL MATTER.

An entirely new article of transmission in the mails was received at the post office of this city a few days since. On opening one of the bags, what should bounce out of the bag but a small dog, properly addressed to the owner, and marked paid, according to the rules of the department. The little fellow seemed glad to get his liberty again, and to breathe the fresh air once more. He arrived at his destination apparently safe and well. So far as we are aware, this is the first instance of the transmission of live animals by mail. But there is something to what uses such a convenient means of conveyance may be put when it is in successful operation, and no other way presents itself. We do not know that this is a worse perversion of the design of our postal system than occasional practices of members of Congress in sending their washing thousands of miles to their homes under the mark of public documents, and with their frank of postage free.

Waterbury (N. Y.) Democrat.

### A Man in Office.

"When I was minister," says Thiers, "I used constantly to find my orders forgotten, or neglected, or misinterpreted. As I have often said to you, men are naturally idle, false, timid, (mentiers, lâches, et craintifs.) Whenever I found an employee supposed that because an order had been given it had been executed, or that, because he had been told a thing it was true, I gave him up as an imbecile. Bonaparte nearly lost the battle of Marengo by supposing that the Austrians had no bridge over the Bormida. Three Generals assured him that they had carefully examined the river, and that there was none. It turned out that there were two, and our army was surprised. When I was preparing for war in 1840, I sat every day for eight hours with the Minister of War, of Marine, and the Interior. I always begin by ascertaining the state of the execution of our previous determinations. I never trusted to any assurances, if better evidence could be procured. If I was told that letters had been dispatched, I required a certificate from the clerk who had sent them or delivered them to the courtiers. If answers had been received I required their production."

"I punished inexorably every negligence, and even every delay. I kept my colleagues and my bureau at work all day, and almost all night. We were all of us half-killed. Such a tension of mind wears more than the hardest bodily work. At night my servants undressed me, took me by the feet and shoulders, and placed me in bed, and I lay there like a corpse till the morning. Even my dreams, when I dreamt, were administrative. To do all this a man must have an iron will and iron body, and what is rarer than either, indifference to the likes and dislikes of those about him, for he is sure to be hated."

There is only one exception, and that is the case of a general. A good military administrator is the idol of his troops, because they feel that their comfort, and even their safety, is the result of his care and of his energy—he is their providence. But the labors of the civilian are unknown to those who profit by them. The sailors at Toulon did not know that it was owing to me that their ships were well stored and victualled. My subordinates respected me, perhaps admired me; but they looked on me as a severe taskmaster, whose exigencies no exertions could satisfy."

### Murder and Blagging by Wholesale.

Six MEN TO BE HUNG IN ONE COUNTY.

From the Yazoo Democrat we learn that the Circuit Court of that Co. recently adjourned, after a protracted session of four weeks. The criminal docket occupied nearly half of the term, there being a large amount of business on hand, the most of which was of the worst of crime. Six men, three white and three black, were found guilty of murder, and sentenced to be hung on the 10th of this month, and one sentenced to the Penitentiary for five years. The names of the condemned criminals are: John Cotton for the murder of Smith; Jack Lynch, for the murder of Wright; Young C. Howard for the murder of his wife. The three negroes, for the murder of their master, Thomas F. Friedman.

One of the murders above alluded to was very terrible, as will be seen from the following:

The annals of most infernal crimes will hardly furnish a parallel to a recent murder in Yazoo county, the details of which are recorded in the Yazoo Democrat. "In a point of monstrous enormity it has few parallels in the history of sin. The act was committed on Tuesday night, the 25th inst. Young C. Howard, residing near Benton, in that county, on the evening of the night alluded to, returned home from a party, and was accompanied by some one else, who was at any cause at all, forcibly turned his wife out of his house with the view of keeping her out all night in the cold. During the night when she supposed her husband was asleep, she crept into the house and laid herself down on a sofa near the fire. Before she was aware, however, and saw her enter, and after she had laid quietly down, and was about to sleep, a heavy hand, deliberately beat her brains out. Howard was apprehended next day and lodged in jail at that place. It is supposed by some that he was laboring under some sort of mental aberration at the time, and the atrocity of the act seems to justify the supposition in some degree."

### El Dorado of Alabama.

We are now confident that the discovery of a mine, with far less expense and much more comfort, and El Dorado within the borders of Alabama, not over one hundred miles from this city and forty from Opelika, on the Montgomery and West Point Railroad. One mile from Goldville, in the northern corner of a section of quartz, containing the finest of gold, said to be worth \$33 at the mine.

The mine is the property of Willford & Co., of Columbus, Ga. There have been created 10 comfortable houses for laborers, and they have steam power for the most approved plan, according to 65 horse power, now in successful operation, and are taking daily from the bowels of the earth the golden treasure that has been held in the hidden rock from time immemorial. This company, we are informed, are now searching for more, and are making progress in mining, and all that can spare the capital and talent to aid in the full development of our own mineral resources, and give encouragement to the operations that will tend to develop all the hidden treasures of our State. Alabama abounds in all that is essential, and if judiciously developed will tend to place her equal if not ahead of any other State of this Union. Her fields of coal are inexhaustible, and time rock covers an immense space, while iron ore, marble and gold invite the capitalist with his helpers to fill his coffers to overflowing.—Ala. Journal, 15th.

### Chancery Court.

In session this week. Hon. John Foster sitting. H. H. Crutcher Register & Co. Chancellor Foster was the ermine as charged born to it and gave general satisfaction to our bar. We predict for him an honorable and successful career. He has fine abilities as a lawyer and we doubt not perform the duties of his responsible office with energy and impartiality.

Talladega Watchtower.

CHARLESTON, Feb. 25. Cotton.—The market is slightly depressed with a moderate demand. Sales to-day 700 bales at 10 to 10 1/2c.

### Copper by the Wholesale.

The miners engaged in testing the value of the possessions of the Alabama Copper-Mining Company have been fortunate in the last few days beyond the wildest expectations of the shareholders. Some weeks ago the shaft sunk at the Campbell place, known as the Talladega mine, intersected three veins of very rich ore dipping at such an angle to each other that it was demonstrable, so the superintendent thought that they would meet and unite, form a deposit of vein of such richness and of such quality as to make an exceedingly valuable mine. This mine, owing to the extreme wetness of the season and to the fact that it was lower than the bed of a branch in its immediate vicinity became filled with water and the miners were compelled to abandon it until suitable machinery could be obtained to exhaust the water in the shaft.

The superintendent then transferred his hands and commenced operations at the McGee place. At this place, at a depth of about 8 feet they struck a large and rich vein of the black oxide of copper—the most easily worked, less liable to exhaustion and therefore the most valuable of all the copper ores. This vein appears to thicken as it descends and if the anticipation of experienced miners holds good in this case will continue to grow richer.

There is quite an excitement in our community at present and many persons who have been holding aloof heretofore and laughing at those who had taken stock are buying up shares at largely increased prices. It does not turn out as we hope and have reason to believe it will, some of us will be very rich and the whole country will be immensely benefited by the influx of capital and the enhanced value of the lands and increased price of every vegetable production necessary to feed the numbers congregated about the mining region.—Talladega can't help being the greatest and richest County in the State.

Tal. Watch Tow.

A report, not yet published, prepared at the General Land Office, in compliance with a resolution of the House of Representatives, shows the amount of territory subject to the act of August, 1854, to graduate and reduce the price of public lands to actual settlers and cultivators:

Of the first class, one dollar an acre, there are 18,768,750 acres; second class, seventy-five cents an acre, 15,654,143; third class, fifty cents an acre, 11,540,920; fourth class, twenty-five cents an acre, 25,114,353 acres.

This land is divided amongst the following States: Ohio, 70,495 acres; Indiana, 458,700; Illinois, 1,385,510; Wisconsin, 1,906,757; Michigan, 8,785,930; Iowa, 996,480; Missouri, 12,850,020; Arkansas, 14,212,610; Louisiana, 7,806,340; Mississippi, 7,602,943; Alabama, 14,038,502; Florida, 6,848,560; making in all 77,561,007 acres.

It appears from a statement prepared at the State Department, giving the number of American seamen registered and enrolled in the United States for the last sixteen years, that for the year ending October, 1840, there were 8,901, and of which 730 were naturalized; and for that ending October 1st, 1855, 9,986, including 300 naturalized persons.

### Barnum Out Barnamed.

It is only a few months since we had the autobiography of BARNUM, showing the manner in which his immense fortune had been accumulated. We are now told that he has been endorsing deeper and deeper, for a great Clock-making establishment at Bridgeport, Ct., and that the concern has failed, leaving severely the shadow of assets to meet its liabilities of half a million of dollars. The whole falls on Mr. BARNUM, who is thus made the victim of a trade somewhat sharper than his own, and among the people around his own birth-place is proved to be by no means the choicest specimen of bargaining of which the soil is capable.

As for BARNUM, nobody need spend a sigh on him. He will always fall on his feet and be sure of a living. But the idea that the inventor of Joke Bell, the Peepie Menial and Tom Thumb, should at last be circumvented by a Wooden Clock Company, in his own native district, has something in it very melancholy, retributive and edifying.

### Good Doctrine.

Have you enemies? Go straight on, and mind them not. If they block up your path, walk round them regardless of their spite. A man who has no enemies is seldom good for anything—he is made of that kind of material which is so easily worked that every one has a hand in it. A sterling character, one who thinks for himself, and speaks what he thinks, is always sure to have enemies. They are as necessary to him as air; they keep him alive and active. A celebrated character, who was surrounded by enemies, used to remark: "They are sparks which, if you do not blow, will go out themselves."—Let this be your feeling, while endeavoring to live down the scandal of those who are bitter against you. If you stop to dispute, you do but more abuse, and open the way for more abuse. Let the poor fellows talk—there will be but a recreation, if you perform but your duty, and hundreds who were once alienated from you, will flock to you and acknowledge their error.

### SOUTH CAROLINA ALL RIGHT.

From the unmistakable evidences of public sentiment which come to us from the newspaper press of South Carolina—the calls for public meetings, signed unanimously by some of the best men in that State—we are satisfied that the people are determined to be represented at the Democratic Convention which meets in Cincinnati to nominate candidates for President and Vice President of the United States. We are pleased to notice this, and cordially congratulate our friends upon the auspicious unanimity and energy which actuates our fellow Democrats of the Palmetto State. They know they are right, and they go ahead.

Constitutionalist.

**MORMON IMMIGRATION.**—The Mormons, who arrived in the ship John J. Boyd, at this port, on Saturday, are mostly Danes; but among them are several Norwegians, Italians from the Protestant valley of Piedmont, and two Icelanders. They are stout, hearty-looking people, with an expression of intelligence above that of the average European immigrants. The greater number are agriculturists, though the trades are well represented. This ship load is said to be only the forerunner of an immense Mormon immigration which we may look for next spring. The emissaries from Great Salt Lake are reported to have been very successful in making proselytes in Norway, Denmark, and Switzerland. In Denmark alone they have 50 traveling ministers, and several hundred local elders. They meet with occasional opposition from the municipal authorities in some places; but this is usually the case, has only served to excite the sympathy of the lower classes in their favor.

One member of the company, by the name of J. J. Boyd, was imprisoned eight months and subjected to many privations, in a town of Denmark. It is estimated that about 10,000 converts will be landed here, this season, mostly from the sources above named. It is satisfactory to know that they are able to pay their passages here, that they generally bring a little money into the country, and do not become a charge to our already overburdened city.

N. Y. Jour. Com.

### Selfishness.

An enemy to all moral improvement is selfishness. Selfishness presents every noble principle dries up the milk of human kindness, destroys the fountains of sympathy, quenches the fires of benevolence, indurates the heart and petrifies the affections. It wrinkles the brow, darkens the countenance, sears the conscience, and strangles at the birth every noble aspiration. It bows the knee to Mammon, and worships him with an Eastern adoration. The sufferings of penury, the sighings of beggary, want, the pains of sickness, the ways of pestilence, the tears of widowhood and the wails of orphanage, are alike unheeded. It oppresses the poor, derides the rich, audaciously from the hard hand of honest industry its last farthing. It glows with fiendish delight upon blighted prospects, prostrate character and ruined fortune. It alleviates no misery, dries up no tears, brings light into no dwelling and raises no lost hope. It is an iron-hearted monster, against which every good man should do valiant battle with all the force of sympathy, the power of benevolence, and the ardor of heaven-born love. "God," says a distinguished writer, "searched among the beasts for the emblem of a selfish man. His language was, 'shall he be hurried with the burial of an ass, drawn and cast forth beyond the gates of Jerusalem.'"

His whose heart is turned to selfishness, who sweats through life, under the load of labor, only to hoard up pelf, and dies without private usefulness, or record of public services, is no better, in God's estimation, than a pack horse, a mule, an ass, a creature of burdens, to be beaten and worked and killed and dragged off by another like him—abandoned to the birds of prey and forgotten. Degradation such as this must be the portion of those that surrender themselves to selfishness.

### Holloway's Ointment and Pills.

—Extraordinary Cure of a Bad Leg, communicated to Professor Holloway by E. Marchant Esq., of the Gazette Office, Edgartown, Mass.—Mr. Daniel Norton, of Edgartown, had a sore on his leg, which defied all ordinary remedies, and instead of improving him he only became worse. At last, he had recourse to Holloway's Ointment and Pills, a few applications of the Ointment to his leg, effected a wonderful change for the better, it lost its swollen and angry appearance, and in a very short time he was completely cured. His leg is now quite sound, and he is able to resume his work, although sixty years of age! This astonishing cure will cure wounds and ulcers even of twenty years standing.

### STATE OF ALABAMA.

#### Benton County.

Court of Probate for Benton County, Ala. Special Term, Feb. 25th, A. D. 1886.

THIS day came R. M. Dickson, Guardian of Frances M. Parks, a minor heir of A. Parks, dec'd, and filed his accounts and vouchers for a final settlement of his said Guardianship.

It is ordered by the Court, that Friday the 4th day of April next, be set for examining, stating, and reporting said account, allowing said vouchers, and making said settlement; and that notice thereof be given by publication in the Jacksonville Republican, a newspaper printed and published in the Town of Jacksonville, in said County, for three successive weeks, and at least thirty days prior to said day, as a notice to all persons concerned, to be and appear at the Court House of said County, on said Friday the 4th day of April next, and contest the making of said settlement, if they think proper. Witness, A. Woods Judge of said Court, at office in Jacksonville, on this 25th day of February, A. D. 1886.

Attest:

A. WOODS, Judge of Probate.

### COLLECTED.

To the Jail in Jacksonville, Benton County, Alabama, on Monday the 3rd day of March, 1886, by John R. Kamey, Jr. before B. A. Brooks, Esq. a Negro man who calls his name **Reuben**, and says he belongs to Edmond Powell, of Rockingham county, Virginia. Said negro is of rather copper color, about 28 or 29 years of age, 5 feet high, and weighs about 150 pounds. The owner of said negro is hereby notified to come forward, prove property, pay charges, and take him away, or he will be dealt with as the law in such cases directs.

awakened by a faithful to his bed, and actually came before he could awake. The bed, wherein two girls, arms badly burned, were lying, they all but had not reached the floor the roof fell in, carrying everything to the ground floor.

**The Various Views of Love.**—To pursue the subject further, and attend to the question of "creation," we take from Howard Thompson's "Letter to England," the following "different views" which obtain respecting marriage in different times.

One says: "I wish to take advice in a serious matter that weighs on my mind."

"What is it?"

"Getting married. Is it?"

"Who have you in view?"

"Is young, handsome and winsome, is she?"

"Who is she?"

"Oh nobody in particular, marrying in the abstract, I am thinking about." That is a Go. many.

"Zounds! I love her, and I have her, I have to swim river for her." Young America.

"No use to deny me or mine me. Where you go, I will go; where you live, I will live; where you will die, where you are buried, I will be buried." The young Ireland.

"She is worth three thousand hundred and twenty-seven pounds six shillings and fourpence in penny, which, under the circumstances, is not quite sufficient." Young England.

The greatest snow storm that ever occurred at Oswego, New York, upon Lake Ontario, region famous for such storms, occurred on Friday, the 1st inst. The railroads stopped running, the window shutters of the stores were not taken down, the newspapers were not published for three days. The streets in many parts of the city were impassable, the snow ranging from four to ten and twenty feet in depth, and in some places the drifts are thirty feet deep. Many of the residences were buried up with snow to the second story. Snow now lies in a depth of a level of from 6 to 8 feet in the woods.

### Holloway's Ointment and Pills.

—Extraordinary Cure of a Bad Leg, communicated to Professor Holloway by E. Marchant Esq., of the Gazette Office, Edgartown, Mass.—Mr. Daniel Norton, of Edgartown, had a sore on his leg, which defied all ordinary remedies, and instead of improving him he only became worse. At last, he had recourse to Holloway's Ointment and Pills, a few applications of the Ointment to his leg,

A few short Extracts from Letters, Testimonial, &c.  
"I have used Jacobs Cordial in my family, and have found it a most efficient and in my judgment, a valuable remedy."  
HON. HIRSH WAINWRIGHT,  
Judge of Supreme Court, Ga.

"It gives me pleasure in being able to recommend Jacobs Cordial—my own personal experience, and the experience of my neighbors and friends around me, is a sufficient guarantee for me to believe it to be all that it purports to be viz. A SOVEREIGN REMEDY."  
Wm. H. UNDERWOOD,  
Formerly Judge Supr Court, Cherokee Circuit.

"I take great pleasure in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy decidedly superior to anything else ever tried by me."  
A. A. GAULDING,  
Deputy G. M. of the Grand Lodge of Georgia.

"I have used Jacobs Cordial in my family, and this, with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded."  
MILAS G. DOMBINS,  
Cashier of the Bank of the State of Georgia, Griffin.

"If there is any credibility in human testimony, Jacobs Cordial must stand pre-eminently above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming in from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations."  
A. FLEMING, Cashier Marine and Fire Ins. B'k, Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed the column into Russia, and gaining commendations wherever used."

Mrs. Caroline Lee Hentz.  
We have in press, and shall publish on the 25th of February, one of the most brilliant and fascinating works which has ever been published in this country. It is from the gifted and elegant pen of one of America's choicest writers, MISS CAROLINE LEE HENTZ, a lady who needs no flourish of trumpets to herald her fame, for she has established a world wide reputation years ago. We may say, however, that in this new work she has not only sustained her previous high reputation, but she has achieved a victory, and reached a literary standard, far in advance of any of her previous efforts. So say all who have examined the manuscript, and we doubt not that this will be the verdict of the critics, when the book shall appear. The scenes are drawn in part from fashionable life in Boston and New-York.

ERNEST LINWOOD  
Is the euphonious title which Mrs. Hentz has chosen for this new and charming emanation of her genius.  
It will be comprised in a handsome 12mo. volume of about 450 pages, price one dollar. With our usual discount to the trade.  
Booksellers are most respectfully requested to forward their orders at an early day.

# LET US REASON TOGETHER.

HOLLOWAYS PILLS.

WHY ARE WE SICK!  
It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAYS PILLS are especially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFLAMED, of all climes, ages, sexes, and constitutions. Prof. Holloway personally superintends the manufacture of his medicines in the U. States, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.  
These famous pills are especially combined for operation on the stomach, liver, the kidneys, the lungs, the skin; and the bowels, correcting any derangement in their functions, purifying the blood, the very function of life, and thus curing disease in all its forms.

DYSPEPSIA & LIVER COMPLAINTS.  
Nearly half the human race have taken these pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to the system, and much suffering, and when all other means have failed.

GENERAL DEBILITY, ILL HEALTH.  
Many of the most despot Governments have acquired their power by the introduction of these pills. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, and children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:  
Asthma, Headaches, Coughs, Public Complaints, Chest Diseases, Inflammation, Dropsy, Inward Weakness, Indigestion, Loss of Spirit, Debility, Piles, Secondary Sympoms, Fever and Ague, Venereal Affections, Female Complaints, Worms, of all kinds.

Sold at the Manufactories of Professor HOLLOWAY, 80, Maiden Lane New York, and 244 Strand London, and by all respectable Drug Stores and Dealers of Medicines throughout the U. States, and the civilized world, in Boxes, at 25 Cents, and in single pills, at 12 1/2 Cents, and 6 Cents.

It is a considerable saving by taking the larger sizes.  
N. B.—Directions for the guidance of patients in every disease are affixed to each Box.

SECRETS FOR THE MILLION!  
A most Wonderful and Invaluable Medical Manual;  
Being an original and popular Treatise on MAN & WOMAN.  
Their Physiology, Functions and Sexual Disorders of every kind, with never-failing Remedies for the speedy cure of all diseases, of a private and delicate character, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.  
THE Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the study of medicine, he has become possessed of most invaluable information in regard to the same, and is able to compress into a few pages the most important and useful facts of medical science on this important subject as the result of the experience of the most eminent physicians in Europe.

The present Dr. H. has long been, and is still, a liberal, unbounded, but at the same time, a judicious, and a successful practitioner of numerous persons, he has been induced to publish this manual, and to distribute it free to the community at large, through the medium of his "Medical Manual and Hand-Book for the Afflicted."

## ON MANHOOD,

AND ITS PREMATURE DECLINE.

Just Published Gratis, the 29th 1856.

A Few Words on the National Treatment

without Medicine, of Syphilis, or to

Weakness, Nervous Emission, Gen-

ital and Nervous Debility, Impotency, and

Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that the many alarming

complaints, originating in the impotence

and softness of youth, may be early re-

moved, without Medicine, is in this small

tract clearly demonstrated, and the entire

ly new and highly successful treatment

adopted by the Author, fully explained

by means of which every one is enabled

to cure himself perfectly and at the least

possible cost, thereby avoiding all the ad-

vertised nostrums of the day.

Sent to any address, gratis and post free

## PURIFY THE BLOOD.

MOFFAT'S

LIFE PILLS

AND

Phoenix Bitters.

Free from all Mineral Poisons.

THE great popularity which MOFFAT'S

LIFE PILLS and PHOENIX BITTERS have

attained, in consequence of extraordinary cures

effected by their use, renders it unnecessary

for the proprietor to enter into a particular an-

alysis of their medicinal virtues or properties.

Having been more than twenty years before the

public, and having the united testimony of more

than Three Millions of persons who have

been restored to the enjoyment of perfect health

by them, it is believed that their reputation as

the best vegetable medicine now before the pub-

lic, admits of no dispute. In almost every city

and village in the United States, there are many

who are ready to testify to their efficacy in re-

moving disease, and giving to the whole system re-

newed vigor and health.

In cases of Scrofula, Ulcers, Scurvy, or

Eruptions of the skin, the operations of the

LIFE PILLS are truly astonishing, and

these life-giving medicines, by their purifying ef-

fects on the blood. **FEVER AND AGUE,**

**Dyspepsia, Dropsy, Etc.,** and in short most

of the diseases which afflict the human race, as

they are ready to testify to their efficacy in re-

moving disease, and giving to the whole system re-

newed vigor and health.

## POETRY.

Alone.

BY C. M. DOWLING.

My dear old wife! how still she glides,

Within the open door,

I seem to hear her gentle step

Beside me on the floor;

I lift my eyes—twas but the wind,

The wind, and nothing more.

I sit beside the cottage fire,

It blazes warm and high,

And as I sit, I hear her knit,

How swift the needles fly!

I look—and lo! a vacant chair,

And seeing that, I sigh.

The walling wind across the moor

Is floating like a knell,

The snow is resting soft and white,

On many a feathered swell;

And oh! if I could cold and chill,

Within my heart as well.

I miss the precious tones of love

Ere I heard for many a year,

And still alone, I seem to feel

Her gentle presence near;

But when I look—and see her not,

I brush away a tear.

I travel back the mist of time,

And with a thrill of pride,

I clasp her hand, trembling hand—

My graceful, girlish bride,

And Ah! I love her better far,

Than all the world beside.

And one by one, the by-gone years

Come gliding to my view

10. It restores Irregularities.
11. It dispels gloomy and Hysterical Feelings.
12. It is an admirable Tonic.

A few short Extracts from Letters, Testimonials, &c.

"I have used Jacobs Cordial in my family, and have found it a most efficient and in my judgment, a valuable remedy."

"It gives me pleasure in being able to recommend Jacobs Cordial—my own personal experience, and the experience of my neighbors and friends around me, a sufficient guarantee for me to believe it to be all that it purports to be viz. A SOVEREIGN REMEDY."

"I take great pleasure in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy decidedly superior to anything else ever tried by me."

"I have used Jacobs Cordial in my family, and with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded."

Cashier of the Bank of the State of Georgia, Griffin.

"If there is any credence in human testimony, Jacobs Cordial must stand pre-eminent above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations."

A. FLEMING, Cashier Marine and Fire Ins. Bk., Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed the columns into Russia, and gaining commendations wherever used."

**Mrs. Caroline Lee Hentz.**  
We have in press, and shall publish on the 20th of February, one of the most brilliant and interesting works which has ever been published in this country. It is from the gifted and elegant pen of one of America's choicest writers, MRS. CAROLINE LEE HENTZ; a lady who needs no flourish of trumpets to herald her fame, for she has established a world wide reputation years ago. We may say, however, that in this new work she has not only sustained her previous reputation, but she has achieved a victory, and reached a literary standpoint, far in advance of any of her previous efforts. So say all who have examined the manuscript, and we doubt not that this will be the verdict of the critics, when the Book shall appear. The scenes are drawn in part from fashionable life in Boston and New-York.

**ERNEST LINWOOD**  
Is the euphonious title which Mrs. Hentz has chosen for this new and charming emanation of her genius.

It will be comprised in a handsome 12mo. volume of about 450 pages, price one dollar, with our usual discount to the trade. Bookellers are most respectfully requested to forward their orders at an early day.

**LET US REASON TOGETHER**

**HOLLOWAY'S PILLS.**  
WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Prof. Holloway personally superintends the manufacture of his medicines in the U. States, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

**THESE PILLS PURIFY THE BLOOD.**

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very function of life, and thus curing disease in all its forms.

**DYSPEPSIA & LIVER COMPLAINTS.**

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

**GENERAL DEBILITY, ILL HEALTH.**

Many of the young and the Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

**FEMALE COMPLAINTS.**

No Female of sound mind, should be without this celebrated medicine. It corrects and regulates the monthly course at all periods, acting in many cases like a charm. It is also the best antispasmodic that can be given to children of all ages, and for any complaint; consequently its family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma, Bowel Complaints, Coughs, Colds, Cholera, Diarrhoea, Dropsy, Debility, Fever and Ague, Female Complaints, Headaches, Indigestion, Influenza, Inward Weakness, Liver Complaints, Loss of Sleep, Piles, Rheumatism, Scurvy, Stomach Complaints, Syphilis, Venereal Affections, Worms, of all kinds.

Sold at the Manufacturers of Professor Holloway & Co., 211 Strand, London, and by all respectable Drug and Dealers of Groceries throughout the U. States, and the civilized world, in Boxes, at 25 cents, 62 1/2 cents, and \$1, each.

There is a considerable saving by taking the large boxes.

S. B.—Directions for the guidance of patients in every disorder are affixed to each Box. August 9, 1855-ly.

**DR. J. H. HUNTER'S Medical Manual;**  
Being an original and popular Treatise on **MAN & WOMAN.**  
Their Physiology, Functions and Sexual Disorders of every kind, with never-failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a specialty, he has become possessed of most invaluable information in regard to the same, and is able to compress into a volume of moderate compass the very quintessence of medical science on this subject, and has the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the city of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, generally unobscured, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of a "Medical Manual and Hand-Book for the Afflicted."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of disease, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sin of sensuality and impurity of every kind.

It is a volume that has been already the subject of recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philanthropists and humanitarians, have most freely extended their commendation to all quarters where its powerful teachings would be likely to be instrumental in the moral purification & physical healing of multitudes of our people, among the young, the middle aged, and the infirm, the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-debauchery, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiology, laws, and social proprieties, and irregularities, whether exhibited by precocious development or arising from the vicious corrupting examples of their associates or others.

To those who have been already ensnared into the "paths that lead to hell," a clear and explicit way is shown by which they may secure a return of sound health, and a regeneration of the soul from its contamination.

It is well known that thousands of victims are annually sacrificed at the shrine of Quackery—suffering death or ruin from the use of the "Syphilis-Strictures, Venereal Weakness, Nervous Debility, and the numerous maladies" which spring directly or less remotely from the indulgence of sexual passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in this country, from a large majority being the victims of the venereal and kindred diseases, the authors, agreeable to the Scriptural injunction, that the sins of the parents shall be visited upon the children, even to the third and fourth generation. The authors, imbued with sentiments of enlarged philanthropy, will not be contented for any effort to restore the views of the afflicted to the humble instrumentality of his Medical Manual.

One copy, enclosed, will be forwarded free of postage any part of the United States, for six copies for one dollar. Address, J. H. HUNTER, C. O. Publishers, box 197, Philadelphia.

Bookkeepers, Canvasers and Book Agents supplied on the most liberal terms. Feb. 12.

Among the diseases this Pill has cured with astonishing rapidity, we may mention  
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a full Stomach, Nausea, Indigestion, Morbid action of the Bowels, and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Catarrhal Diseases, which require an evacuant Medicine, Scrophula, or King's Evil. They also by purifying the blood and stimulating the system, cure many Complaints which it would not be supposed they could reach, such as Psoriasis, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, and other kindred complaints, arising from a low state of the body, or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

FIVE THOUSAND IN GOLD TURNED INTO COPPER.—A new way of cheating was discovered on Friday. It appears that in making their exchanges some of the Boston banks are in the habit of passing bags of gold to and from each other without counting the contents, the bags being received by their weight without examining what

is in them. On Friday morning a bag purporting to contain \$5,000 was received by the Exchange Bank from another bank in that city. The weight was right but the officers of the Exchange Bank, who are in the habit of examining the contents of the bags they receive, found that this bag contained only about twenty dollars in gold.

The feat in shooting performed by Tell in shooting the apple off the head of his son has been told over and over again, and as familiar as household words, was a wonderful piece of execution, close calculation and great daring. Something similar was attempted and successfully performed in

There had been a turkey shoot at which the several 'crack shots' had assisted; after the shoot was over the crowd adjourned to the tavern: numerous drinks were called for and put out of sight, and the whole party

William Tell, while one of the party, by name Horace H. No one expected that he would do it, and for a moment consternation was depicted on the countenances of all the by-standers, until Grogan, putting his hand on his head, said in an agonizing tone, "I'm dead!"

It was found that Grogan was not dead, but that the potato had been cut in twain, and that no blood had been drawn, though a ridge about the size of a person's finger had been raised on the top of his head by the force of the ball.

Grogan who did not think that Wadsworth would fire, was seriously alarmed

## GREAT SOUTHERN REMEDY.

### JACOBS CORDIAL.

FOR ALL BOWEL DISEASES.

CHOLERA, DYSENTERY, DIARRHOEA, CHOLERA MORBUS, BILIOUS COLIC, CHOLERA INFANTUM.

ALSO ADMIRABLY ADAPTED TO MANY DISEASES OF FEMALES MOST ESPECIALLY PAINFUL MENSTRUATION.

The Virtues of Jacobs Cordial are too well known to require Eulogiums.

1. It cures the worst cases of Dysentery.
2. It cures California or Mexican Diarrhoea.
3. It relieves the severest Colic.
4. It cures Cholera Morbus.
5. It cures Cholera Infantum.
6. It cures the worst cases of Dysentery.
7. It cures Painful Menstruation.
8. It relieves Pain in the Back & Loins.
9. It counteracts Nervousness & Dependence.
10. It restores Irregularities.
11. It dispels gloomy and Hysterical Feelings.
12. It is an admirable Tonic.

A few short Extracts from Editors' Testimonials, &c.

"I have used Jacobs Cordial in my family, and have found it a most efficient and in my judgment, a valuable remedy."

"It gives me pleasure in being able to recommend Jacobs Cordial—my own personal experience, and the experience of my neighbors and friends around me, is a sufficient guarantee for me to believe it to be all that it purports to be viz. A SOVEREIGN REMEDY."

"I take great pleasure in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy decidedly superior to anything else ever tried by me."

"I have used Jacobs Cordial in my family, and this, with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded."

"If there is any credibility in human testimony, Jacobs Cordial must stand pre-eminent above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming in from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations."

A. FLEMING, Cashier Marine and Fire Ins. Bk. Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed the column into Russia, and gaining commendations wherever used."

## COLLEGIATE Cherokee Institute.

Second term of the above Institution will commence on the 1st Monday in September, 1855. A spacious new hall, capable of seating 200 pupils will be ready, and the ample rooms for classes, and for the musical and primary departments.

The undersigned, Principal, induced by the agreement of a number of citizens of this city, (Rome) to enter and keep in the Institute 50 pupils for the term of two years, each promising to enter and pay for the number of pupils annexed to his name, has undertaken to found here upon his own premises and at his own expense, an Institution worthy of the noble cause of Female Education. This must afford the most ample assurance of his determination to make the Institute eminently worthy of the public confidence and patronage. To this may be added an experience of 20 years, eminently successful, by which he has achieved a reputation in this arduous and responsible field of labor is not to be overthrown by the breath of calumny.

Every branch appropriate to the most accomplished female education will be here taught, in the most thorough manner, by experienced and able instructors, upon terms more moderate than in the so-called female Colleges of the day.

## PURIFY THE BLOOD.

### LIFE PILLS

AND Phoenix Bitters.

Free from all Mineral Poisons.

THE great popularity which MOFFAT'S LIFE PILLS & PHOENIX BITTERS have attained, in consequence of extraordinary cures effected by their use, renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties. Having been more than twenty years before the public, and having the united testimony of more than Three Millions of persons who have been restored to the enjoyment of perfect health by them, it is believed that their curative power is the best vegetable medicine now before the public, and of no dispute. In almost every city and village of the United States, there are many who are ready to testify to their curative power, and giving to the whole system renewed vigor and health.

In cases of Scrofula, Ulcers, Scurvy, Eruptions of the skin, the operations of the LIFE MEDICINES are truly astonishing, often removing in a few days the most inveterate of these loathsome diseases, by their purifying of the blood. FEVER and AGUE, Dyspepsia, Dropsy, Piles, and in short most all diseases, can yield to their curative power. No family should be without them, as by their timely use much suffering and expense may be saved.

## A MARVELLOUS REMEDY.

For a Marvellous Age!

### HOLLOWAY'S OINTMENT.

#### THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these openings, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidney, disorders of the Liver, affections of the heart, inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bones or most of any thickness. The healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaint, that cannot be reached by other means.

**SEROTIN, SALT RHEUM & SCROFULA HUMORS.**

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scoury, Sore Heals, Scrofula, or Erysipelas, can long withstand its influence. The Ointment, rubbed on the inflamed parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

**SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.**

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when having to cure the most cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of twenty years' standing.

### PILES AND FISTULAS.

These and other similar distressing complaints, are effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

- Bunions
- Burns
- Chapped hands
- Chilblains
- Fistulas
- Gout
- Lumbago
- Mercular Eruptions
- Piles
- Rheumatism
- Sore Throat
- Scalds
- Scrofula
- Stiff Joints
- Ulcera
- Yearling Sores
- Wounds of all kinds

### DOCTORS' Medical Manual;

Being an original and popular Treatise on MAN & WOMAN.

Their Physiology, Functions and Sexual Disorders of every kind, with never-failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.

THE Author of the above volume is a graduate of one of the medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and other disorders as a specialty, he has become possessed of most valuable information in regard to the same, and is able to compress into a volume compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the city of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, universally acknowledged, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand-Book for the Afflicted."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kind.
